

December 12, 2016

Dear Sir or Madam,

In response to a post in "Job Opportunities for BUET Students", I believe I am an excellent candidate for the role of **Executive Engineer**. I am well organized and laborious and I believe I am well qualified for this post. I do wish to offer my services to your company and help the company in fulfilling the mission and visions.

Currently I'm Studying M.Sc. in **Theoretical Physics** at **Dhaka University** and researching on "Quantum Gravity" to establish "the first principles of Quantum Gravity" and "integration of Quantum Gravity with Machine Learning". Furthermore, I have completed B. Sc. in **Electrical and Electronic Engineering** from **Bangladesh University of Engineering and Technology** with a very good knowledge in English, **Communication**, **Electronics**, **Electrical instruments**, Basic Knowledge of PLC and **Telecommunication** etc. I believe completing different hardware and software projects successfully in undergrad level will help me to meet the main responsibilities of your company's requirements.

I am looking for a role where I can help to make a real impact in the company and am ready to make the next step into a career building role. As such I would like to work for a company where I can be given the opportunity to expand my knowledge.

I have enclosed my CV and am available for interview at your convenience. References are available on request and I very much look forward to hearing from you as appropriate.

Yours faithfully,

Rafsan Jani
